MODULE HANDBOOK

Module name	Big Data Architecture and Infrastructures
Module level, if applicable	Undergraduate
Code, if applicable	MII-2607
Courses, if applicable	NA
Semester(s) in which the module is taught	Fall (Odd)
Person responsible for the module	Dr. Mardhani Riasetiawan, MT
Lecturer(s)	Dr. Mardhani Riasetiawan, MT
Language	Bahasa Indonesia & English
Relation to curriculum	1. Undergraduate degree program, compulsory, 6th semester. 2. International undergraduate program, compulsory, 6th semester.
Teaching methods	1. Undergraduate degree program: lectures, < 60 students, 2. International undergraduate program: lectures, < 30 students.
Workload (incl. contact hours, self-study hours)	1. Lectures: 3 x 50 = 150 minutes per week. 2. Exercises and Assignments: 2 x 50 = 100 minutes per week. 3. Private study: 1 x 50 = 50 minutes per week.
Credit points	3 credit points (sks).
Requirements according to the examination regulations	A student must have attended at least 75% of the lectures to sit in the exams.
Required and recommended prerequisites for joining the module	Databases
Learning outcomes and their corresponding PLOs	After completing this module, a student is expected to: CO1. Able to explain and identify the concepts and characteristics of big data architecture CO2. Able to explain and identify the components of big data: ingestion, data gathering, data storage, data processing, data analysis and visualizations CO3. Able to explain big data processing which is supported by computational resources CO4. Able to collect data, process data and generate analysis in big data environment CO5. Able to present and present the results of large data processing based on specific case studies using big data architecture

	<table border="1"> <thead> <tr> <th></th> <th>PLO</th> <th>CO1</th> <th>CO2</th> <th>CO3</th> <th>CO4</th> <th>CO5</th> </tr> </thead> <tbody> <tr> <td rowspan="5">Program Learning Outcome (PLO)</td> <td>PLO1</td> <td>√</td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>PLO2</td> <td></td> <td>√</td> <td></td> <td></td> <td></td> </tr> <tr> <td>PLO3</td> <td></td> <td></td> <td>√</td> <td></td> <td></td> </tr> <tr> <td>PLO4</td> <td></td> <td></td> <td></td> <td>√</td> <td></td> </tr> <tr> <td>PLO5</td> <td></td> <td></td> <td></td> <td></td> <td>√</td> </tr> </tbody> </table>		PLO	CO1	CO2	CO3	CO4	CO5	Program Learning Outcome (PLO)	PLO1	√					PLO2		√				PLO3			√			PLO4				√		PLO5					√																		
	PLO	CO1	CO2	CO3	CO4	CO5																																																			
Program Learning Outcome (PLO)	PLO1	√																																																							
	PLO2		√																																																						
	PLO3			√																																																					
	PLO4				√																																																				
	PLO5					√																																																			
Content	<p>1. Concept and understanding, big data as technology, method and art</p> <p>2. Architecture and Components of Big Data Facilities</p> <p>3. Management of computing resources for processing big data</p> <p>4. Big Data environmental supporting technology</p> <p>5. Big Data processing management</p>																																																								
Study and examination requirements and examination forms	<p>The evaluation is done in 2 forms, namely:</p> <ol style="list-style-type: none"> 1. Trial, either midterm or semester test, 2. Two tasks, including individual, 3. Two group assignments to be completed within a certain timeframe, and <p>Assessment is done using benchmark assessment, with the aim of measuring the level of student understanding related to the target and class rank.</p>																																																								
Media employed	e-learning Platform (ELOK), LCD, blackboard, and websites.																																																								
Assessments and evaluation	<table border="1"> <thead> <tr> <th>Type</th> <th>Percentage</th> <th>CO1</th> <th>CO2</th> <th>CO3</th> <th>CO4</th> <th>CO5</th> </tr> </thead> <tbody> <tr> <td>Task 1</td> <td>10</td> <td>√</td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>Group Task 1</td> <td>15</td> <td></td> <td>√</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Midsem Test</td> <td>25</td> <td></td> <td>√</td> <td>√</td> <td></td> <td></td> </tr> <tr> <td>Task 2</td> <td>10</td> <td></td> <td></td> <td>√</td> <td></td> <td></td> </tr> <tr> <td>Group Task 2</td> <td>15</td> <td></td> <td></td> <td></td> <td>√</td> <td></td> </tr> <tr> <td>FinalSem test</td> <td>25</td> <td></td> <td></td> <td></td> <td>√</td> <td>√</td> </tr> <tr> <td>Total</td> <td>100</td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table>	Type	Percentage	CO1	CO2	CO3	CO4	CO5	Task 1	10	√					Group Task 1	15		√				Midsem Test	25		√	√			Task 2	10			√			Group Task 2	15				√		FinalSem test	25				√	√	Total	100
