

MODULE HANDBOOK
Master Program in Computer Science
Department of Computer Science and Electronics
Faculty of Mathematics and Natural Sciences
Universitas Gadjah Mada

Data Science

Module name	Data Science	
Module level	Master	
Code	MII-6632	
Courses (if applicable)	Data Science	
Semester	Summer (Genap)	
Contact person	Drs. Edi Winarko, M.Sc., Ph.D.	
Lecturer	Drs. Edi Winarko, M.Sc., Ph.D. Dr. Sigit Priyanta	
Language	Bahasa Indonesia	
Relation to curriculum	Master program, Elective, 2 nd semester	
Type of teaching, contact hours	Master program: lectures, 14 student (class A) and 10 student (class B), Thursday, 10.00 - 12.30.	
Workload	<ol style="list-style-type: none"> 1. Lectures: 3 x 50 = 150 minutes (2.5 hours) per week. 2. Exercises and Assignments: 3 x 60 = 180 minutes (3 hours) per week. 3. Private study: 3 x 60 = 180 minutes (3 hours) per week. 	
Credit points	3 credit points (sks).	
Requirements according to the examination regulations	-	
Recommended prerequisites	MII 6634 Mathematics for Data Science	
Learning outcomes and their corresponding PLOs	<p>After completing this module, a student is expected to:</p> <p>CO-1 Can explain the concept of data science, data mining, business intelligence and trends</p> <p>CO-2 Can different types of data and their characteristics</p> <p>CO-3 Can explain the concept and implementation of data exploration and data preparation</p> <p>CO-4 Can explain and implement classification methods</p> <p>CO-5 Can explain and implement association rules and sequential pattern mining</p> <p>CO-6 Can explain and implement clustering methods</p> <p>CO-7 Can explain and implement application of data mining in documents (text mining)</p>	<p>PLO2</p> <p>PLO2</p> <p>PLO3</p> <p>PLO3</p> <p>PLO3</p> <p>PLO3</p> <p>PLO3</p> <p>PLO4</p>
Content	In this Data Science course, students will learn various techniques or methods for data collection, data preparation, data modeling, deployment data, and visualization to obtain information from data. In addition, students also learn to manage data to make it easier to get information for business purposes. The use of data science tools is introduced both for data	

	preparation, manipulation, processing and visualization. The visualization of business solutions from the data science approach is explained along with the business intelligence approach.																																			
Study and examination requirements and forms of examination	Mid-terms examination and Final examination.																																			
Media employed	LCD, blackboard, websites, and e-learning.																																			
Assessments and Evaluation	<table border="1"> <thead> <tr> <th>CO</th> <th>Method</th> <th>Percentage</th> </tr> </thead> <tbody> <tr> <td rowspan="2">CO-1</td> <td>Assignment 1</td> <td>5%</td> </tr> <tr> <td>Problem 1 mid exam</td> <td>10%</td> </tr> <tr> <td rowspan="2">CO-2</td> <td>Assignment 2</td> <td>5%</td> </tr> <tr> <td>Problem 2 mid exam</td> <td>5%</td> </tr> <tr> <td rowspan="3">CO-3</td> <td>Assignment 3</td> <td>5%</td> </tr> <tr> <td>Problem 3 mid exam</td> <td>10%</td> </tr> <tr> <td>Problem 4 mid exam</td> <td>10%</td> </tr> <tr> <td rowspan="3">CO-5</td> <td>Assignment 4</td> <td>5%</td> </tr> <tr> <td>Problem 1 final exam</td> <td>10%</td> </tr> <tr> <td>Problem 2 final exam</td> <td>5%</td> </tr> <tr> <td rowspan="2">CO-6</td> <td>Assignment 5</td> <td>5%</td> </tr> <tr> <td>Problem 3 final exam</td> <td>10%</td> </tr> <tr> <td>CO-7</td> <td>Project</td> <td>15%</td> </tr> </tbody> </table>	CO	Method	Percentage	CO-1	Assignment 1	5%	Problem 1 mid exam	10%	CO-2	Assignment 2	5%	Problem 2 mid exam	5%	CO-3	Assignment 3	5%	Problem 3 mid exam	10%	Problem 4 mid exam	10%	CO-5	Assignment 4	5%	Problem 1 final exam	10%	Problem 2 final exam	5%	CO-6	Assignment 5	5%	Problem 3 final exam	10%	CO-7	Project	15%
CO	Method	Percentage																																		
CO-1	Assignment 1	5%																																		
	Problem 1 mid exam	10%																																		
CO-2	Assignment 2	5%																																		
	Problem 2 mid exam	5%																																		
CO-3	Assignment 3	5%																																		
	Problem 3 mid exam	10%																																		
	Problem 4 mid exam	10%																																		
CO-5	Assignment 4	5%																																		
	Problem 1 final exam	10%																																		
	Problem 2 final exam	5%																																		
CO-6	Assignment 5	5%																																		
	Problem 3 final exam	10%																																		
CO-7	Project	15%
